An Amazing Adventure of Hurricane Brothers!

Many people afraid of hurricanes, even think of them as disaster.

They are not all bad! After reading this book, children can learn that hurricane has good functions in nature.

Denvin is a hurricane, but when he arrives at North part of the world from South, he is exhausted at all. What happens to him? Then he starts to tell his long travel story.

The hurricane brothers, Denvin and Bula Bula, are born in the North Pacific Ocean. As a big brother, Denvin shows every harsh action for his younger brother. But Bula Bula is different! He is curious about every reason in the world. When a seagull and a dolphin say that there is a new world in North, Bula Bula acts odd! He goes for a trip to find a life's secret. Denvin feels a great sense of loss when his younger brother leaves.

Then one day Denvin meets his mother, the sun, she asks for him tenderly. "My dear son, can you go to North part of the world?"

This science picture book with lovely hurricane characters shows main principles of water circulation. In creative adventure story, Children can understand of science facts with Denvin and Bula Bula in various ways!
